CDSA, City of Quebec

The Rousseau Advantages

A unique and highly functional post. The common post is the cornerstone of the structure. Its unique T-shape offers up to 7 fixing zones for different applications. Plus, its hollow center makes for installation without interference between sections.

Record storage units can be combined with the Spider® industrial shelving system.

It is possible to use your vertical space to the maximum by combining the Spider® record storage system with two-level shelving.

Shelves are installed with compression clips. The beams hook onto the front of the post and are designed to work with steel, wood and wire decking.

RECORD STORAGE
